## WORK EXPERIENCE

### AUBURN DIGITAL SOLUTIONS [LINK](#)

Vidyavihar, Mumbai

Web Development Intern

Dec 2022- Jan 2023

- Implemented best practices in HTML , CSS and PHP
- Developed detailed project descriptions and course outlines that provided clarity and engagement for prospective students; increased course enrollment inquiries by over 150 inquiries in the initial month of deployment.
- Designed a website using HTML, CSS and Bootstrap for Cipla Limited for their ointment product named Cipladine.

## SKILLS

**Web development:** HTML, CSS , Javascript, Bootstrap

**Programming languages:** C++ , Java

**Database:** SQL , MongoDB

**Development Tools:** Github , Matlab , VScode

## PROJECTS

### PolsarLearn : A website for Remote sensing learning

[LINK](#)

**Technologies used:** HTML, CSS, Javascript, ReactJS, NodeJS , MongoDB , ThunderClient API

- Collaborated with a group of 4 members and developed an educational website based on remote sensing learning.
- Users can login and get personalised content for studying or research in this field.
- Also prepared a community forum where users can interact with others.
- A notes section is also implemented where researchers can upload their work.

### Amazon Healthcare Clone

[LINK](#)

**Technologies used:** HTML, CSS, Bootstrap

- Created a static website using HTML, CSS and Bootstrap
- Users can login and book their appointments with doctors for health check-ups.

### Recipe Website

[LINK](#)

**Technologies used:** HTML, CSS, Bootstrap

- Proposed a static website where you can get all the recipes.
- Users can choose between vegetarian , non-veg and deserts that they would like to cook.
